

Paystation Wrench

Our version of the industry-standard tool used by telephone industry service personnel to secure paystation and network interface hardware.

Works with any 5/32 in. (3.96 mm) pan or "button" head Allen hex fastener that has a center pin to prevent access with a normal hex wrench.

P/N 19192 Weight: 3 oz. (85 g)

Security Hex Adaptor

A special double-ended hex adapter for 2 sizes of pin-in-head security fasteners. The adapter inserts into both ends of the 216 C tool. Has a 5/32 in. (3.96 mm) hex and a 5/16 in. (7.93 mm) hex - both with center holes to fit over special fasteners with a pin in a recessed hex. The 5/16 in. (7.93 mm) hex has internal threads for rethreading binding posts.

P/N 70485 Wt. 2 oz. (56 g)

Lineman's Crescent Wrench

Similar to the "gas wrenches" of years ago, many linemen have told us that this versatile Crescent® Lineman's Adjustable Wrench is a very handy tool to have in their tool bag.

P/N 70100 Weight: 4 lbs. (1.8 kgs)
