

3 in. Ratchet Tele-Cutter

A compact, one-handed, light weight ratcheting tool for cutting copper communications cable up to 3.00 in. (76 mm) in diameter.

- ▶ Design features make it easy to use
- ▶ The cutter has a release lever to disengage the ratchet allowing the blades to open even in mid-cut
- ▶ Safety latch for locking blades in closed position for storing when out of service
- ▶ Features a rubber boot to lodge the stationary handle against your work surface and multiply your manual effort

Note: This tool should never be used to cut steel or steel reinforced cable.

P/N 01819 Weight: 2.5 lbs. (1.13 kgs)

75246 - 500 MCM Cutter

Large Power Cutter

These fine quality crafted cutters have rugged chrome/moly steel blades which offer excellent cutting edge performance with toughness that stands up to heavy use.

- ▶ Blades are precision ground for easy cutting and contoured to act like a hook, forcing the cable into the blades and preventing it from slipping as you cut with minimal cable distortion
- ▶ Both have fiberglass handles with 100KV/ft. dielectric strength

Warning: Never use to cut electrically live cable. Severe injury may result.

P/N	Description	Length	Weight
75246	500 MCM Cable Cutter 1-1/4 in. capacity	21 in. (533 mm)	3.5 lbs (1.5 kgs)
75247	1000 MCM Cable Cutter 2 in. capacity	32 in. (813 mm)	9 lbs. (4 kgs)

75247 - 1000 MCM Cutter
