Measuring Wheel - 12-1/2 in. Diameter

The most popular measuring wheel in use by engineers and craft personnel.

- ▶ Measure as fast as you can walk
- ▶ Wheel calibrated to counter - accurate for estimated measurements
- ▶ Large 12 1/2 in. (137.5 mm) wheel model ideal for uneven terrain
- ▶ Also suitable for long indoor measurements
- ▶ Manufacturing plant layout, outdoor measurements on firm smooth surfaces
- ▶ Retractable handle adjusts for comfortable measurements
- ▶ Feet and Inches
