

Furnace Hood

An accessory for the Propane Furnace, this convenient shield mounts on top of the Furnace to provide reliable heat deflection.

P/N 70122 Weight: 4 lbs. (1.8 kg)

Four-Panel Windshield

Perfect for keeping wind away from lead sheath cable installation work materials, this shield features a welded steel grate and supporting brackets, providing broad support for large solder melting pots and kettles.

- ▶ Made of galvanized steel for corrosion resistance
- ▶ Panel edges roll around 1/4 in. (6 mm) dia. rod, eliminating sharp corners

P/N 70121 Weight: 22 lbs. (10 kgs)

Solder Melting Pot

Manufactured in 6 in. (48 fl. oz./20-lb. cap.) and 8 in. (72 fl. oz./30-lb. cap.) dia. sizes from high-grade gray cast iron, these pots are designed to hold their heat.

The loop on the steel bail turns freely in the ears of a pot, reducing the chance of a spill.

P/N	Item	Weight
61566	6 in. (152 mm) dia.	6 lbs. (2.7 kgs)
61568	8 in. (203 mm) dia.	8 lbs. (3.6 kgs)

Pot Hook Handle

Ideal for carrying paraffin or solder pots to and from work sites, hanging pots from aerial cable, or suspending them from handline hooks.

There's a pot hook on one end, and a cable hook and handle on the other. The entire handle is made from 3/8 in. (10 mm) steel rod.

P/N 07170 Weight: 8 oz. (.23 kg)
