

## Our Canvas Bag

Help protect our environment and the safety of those in your community by using this canvas bag to stash your left-over wire scraps and other work site throwaways.

- ▶ The heavy reinforced-canvas bag can hold up to one full bushel, yet folds flat to fit almost anywhere
- ▶ The two riveted side straps and carrying handles let you hang it up and secure it vertically as well

P/N 06265 Weight: 2 lbs. (.91 kg)

## Canvas Pocket

You can mount this handy pocket on your belt or on a strand or cable near your aerial work site to keep your tools or pole line hardware within easy reach.

It's made of tough #10 olive green canvas, with a durable leather-reinforced bottom and two adjustable straps with snap hooks.

P/N 07196 Weight: 8 oz. (.23 kg)

## Canvas Buckets

Used to transport tools from the ground to an aerial perch, each of these 12 in. (305 mm) H heavy canvas buckets has a tough vulcanized rubber bottom and reinforced steel ring mouth to give you years of heavy-duty use.

- ▶ Spanning the mouth of each bucket is a rope handle which runs between two grommets riveted to opposite sides of the bucket. The rope is long enough so that it won't get in your way if you have to move large or heavy objects in and out of the bucket.
- ▶ A solid brass snap swivel on the rope lets you attach it to any secure strand or handline
- ▶ Three versions available, each with a bucket height of 12 in. : 9 in. dia. with single outside pocket for smaller tools, 12 in. dia. with no pockets and 12 in. dia. with 15 small stitched in pouches

P/N	Item	Weight
66731	12 in. (305 mm) dia. Canvas Bucket (no pocket)	3 lbs. (1.4 kg)
