

Tarpaulins

There's nothing better for making fast shelters and equipment covers than these handy canvas and vinyl tarps.

- ▶ The canvas tarps are made of lightweight, easy-to-handle olive duck canvas. The surface is coated with a vinyl afterfinish for extra fire, water and weather resistance.
- ▶ The "D" tarp is made from 12 ounce/square yard vinyl laminated nylon cloth, yellow on one side and white on the other
- ▶ The corners and edges are double reinforced to prevent fraying
- ▶ Brass grommets riveted into each corner and along the edges make it easy to secure the tarp in any way you want

Canvas Tarps P/N	Canvas Item	Weight
78092	4 ft. x 6 ft. Tarpaulin (122 cm x 183 cm)	3 lbs. (1.4 kg)
