

Splicer's Ladder Tent

If one of your cable splicing tasks includes working from a ladder or aerial bucket, you'll find this economical tent is just about perfect for the job.

- ▶ This tent features the same advanced, lightweight pack cloth used in our Splicer's Combination Tent... and the same single-action buckle fasteners
- ▶ It's easy to carry up a ladder, and provides a safe, shelter with near-100% white light inside
- ▶ Double material thickness is used on one side to protect the tent where the ladder rests against it
- ▶ Covers attach to frames with velcro, allowing easy replacement if damaged
- ▶ New, lightweight pack cloth material is compatible with earlier 76041 C Ladder Tent frame
- ▶ The frame consists of two corrosion-resistant clamps connected by three lengths of 5/16 in. (8 mm) dia. galvanized steel strand
- ▶ Splicer's Ladder Tent 8 ft. 8 in. (2.64 m) x 5 ft. (152 cm) diameter

To set up the tent, you fasten the clamps to the messenger in two places, forming a wide 42 in. (1.06 m) diameter circle that supports the cover.

P/N	Item	Weight
70204	Splicer's Ladder Tent with Bag	11 lbs. (5 kgs)
70077	Splicer's Ladder Tent Cover Only	4 lbs. (1.8 kgs)
70214	Splicer's Ladder Tent Storage Bag	1 lb. (.45 kg)

Ground Tent

This big tent is the warmest, toughest, most wind resistant tent you can buy

- ▶ Ideal for excavations, surface closures, manholes, cable laterals, and other ground work in rough weather
- ▶ 6 ft. 5 in. (1.95 m) H x 6 ft. 10 in. (2.08 m) square base x 37-1/2 in. (95 cm) square ceiling; 69 lbs. (31.3 kgs)
- ▶ The tough canvas cover is of UL Listed/CPAI-84 compliant flame-resistant duck for water resistance, heat retention and breathability unmatched by synthetic materials
- ▶ A 12 in. sod flap on all sides seals off floor drafts
- ▶ Snap hooks and eyes along the full-height front opening block out weather
- ▶ Rings on the outside top corners let you attach guy ropes for stability in high winds
- ▶ A center bow on top of the all-galvanized-steel frame supports the canvas roof

The hinged legs fold easily, yet lock firmly in place with a metal sleeve

- ▶ Fittings on each leg end slide into a grommet on the corner of the floor
