

## RC Cabinet Tent

When servicing exposed remote concentrator cabinets in bad weather, no other tent gives you such complete protection from elements with such a large, unobstructed work space.

- ▶ Largest tent of its kind - delivers over 51 sq. ft. (4.77 m<sup>2</sup>) of unobstructed work space
- ▶ 8 ft. 4 in. (2.54 m) wide x 6 ft. 6 in. (1.98 m) high (front); 5 ft. 8 in. (1.73 m) (rear) high x 6 ft. 2 in. (1.88 m) deep
- ▶ Fire-resistant, achromatic white 430 Denier nylon "pack" cloth shell for maximum durability and light transmission with true color rendition
- ▶ Unique polyvinyl-laminated roof material electronically welded to block moisture penetration
- ▶ Tough .065 in. wall 1.25 sq. in. square aluminum tubing frame constructed for maximum rigidity with stainless steel hardware
- ▶ "Cabana-style" folding mechanism allows single person set-up and compact storage
- ▶ Shell is completely removable for separate laundering
- ▶ Two blower hose openings on opposite walls
- ▶ Screened and zippered windows
- ▶ Zip together two tents: 3-way opening front fly is removable for joining second tent plus rear door for second entrance
- ▶ Built-in sod flaps and tie-down grommets
- ▶ Rust-proof nylon zippers throughout
- ▶ Fluorescent safety band surrounds tent
- ▶ Rugged storage bag included

P/N 15285 Weight: 58 lbs. (26 kgs)

### CAUTION:

This tent has a metallic frame which can conduct electricity. Look out for power wires in your work space and keep the tent well away from potential sources of electric shock.

### WARNING:

Keep all flame and heat sources away from this tent fabric. This tent is made with CPAI-84 spec. flame resistant fabric. It is not fire-proof. The fabric will burn if left in continuous contact with any flame source. The application of any foreign substance to the tent fabric may render the flame resistant properties ineffective.
