

Umbrella Tent

This convertible shelter gives you a highly-efficient, portable tent you can use year round.

- ▶ The tent's rugged 210 denier translucent nylon curtain has a 25 in. (63.5 cm) H PVC window surrounding the tent, for maximum ambient light transmission and unobstructed vision around your opening
- ▶ And to keep your work area dry, there's a 10-1/2 in. (26.7 cm) W ground flap along the tent bottom
- ▶ The tent's ridge pole serves as a support arm for the umbrella; it fits over a bracket on our Manhole Guard Rail
- ▶ The pole's inverted L design puts the tent's center over the manhole, for 6 ft.10 in. (2.08 m) of headroom and a 67 in. (170 cm) interior dia. without obstructions
- ▶ To erect the tent, just slide the cover over the umbrella and attach the Velcro strips on the inside of the tent to the matching strips on the umbrella; the entrance has two top-to-bottom strips you can use to seal the tent off from the outside; when you're done, the cover folds up to fit inside the umbrella

P/N 17020 Umbrella Tent Weight: 23 lbs. (10.4 kgs)

P/N 15237 Mount Assembly for Guard Rail
Weight: 3 lbs. (1.4 kgs)
