

Hand Signaling Device

Controlling traffic around work sites becomes much easier when you use this dependable dual purpose flagger's helper.

- ▶ The octagonal sign itself measures 24 in. (61 cm) in diameter, and has stop and slow legends printed on opposite sides of the ABS plastic sign
- ▶ Engineer grade reflective material covers both sides for excellent visual detail when traffic is using headlights
- ▶ Includes permanently attached 12 in. (30 cm) black plastic handle and 60 in. (152 cm) detachable, black plastic staff with safety-tip. Bottom of sign to top of staff is 6 ft. (72 in.).
- ▶ Disconnect by two spring-clip pins, top inserts into staff

P/N 70380 Non-Metallic Reflective Hand Sign
Weight 6.6 lbs. (3 kgs)

SIGNS & SIGNALING

D Warning Flag

This 18 in. (457 mm) square vinyl-coated nylon flag is colored bright fluorescent orange for extra visibility at night or when the weather gets bad.

- ▶ Each flag has a sewn-in diagonal stay keeping it rigid for increased visibility
- ▶ The wooden staff is 24 in. (61 cm) long by 3/4 in. (19 mm) in diameter
