

Cable Block Max 1 Inch Cable

This block is used to support one cable up to 1 in. (25 mm) on new 1/4 in. (6 mm) strand. The high strength aluminum frame has a spring-loaded steel pin that keeps it locked on the strand & the cable on the nylon roller.

P/N 73305 Weight 4 oz. (.113 kg)

Overlash Roller 4 Inch

Simple & effective, this block handles cable or bundles up to 4 in.

- ▶ The roller is made from industrial conveyor bearing material for high abrasion resistance with low rolling friction
- ▶ A spring-latch gate encloses cable & strand within the frame
- ▶ Steel frame allows "in field" straightening if dropped or bent
- ▶ A narrow profile & stackable design allows for high density storage

P/N 87210 Weight 1 lb. (.45 kg)

4-Roller Cable Block

This block can support multiple cables during new strand construction.

- ▶ Can accommodate three 1 in. (25 mm) cables on nylon rollers & a pulling line or cable up to 1-1/4 in. (32 mm) on an aluminum roller
- ▶ Bi-directional cam keeps block stationary during cable pull-out

P/N 38100 Weight 3.5 lbs. (1.59 kgs.)
