

P/N	Length	Weight
70431	24 in. (61 cm)	1.8 lbs. (.85 kg)
70432	36 in. (91 cm)	3.0 lbs. (1.4 kg)

Standard Cable Block Pusher

Pushers lock onto the strand and push the cable blocks out of the way of the lasher during the cable lashing process. These are especially useful when lashing multiple cables to allow space between the first cable block and the lasher.

- ▶ Constructed of aluminum channel with locking pins at each end
- ▶ Large, rounded flanges at each end accommodate all lasher surfaces
- ▶ Two standard lengths are available to choose from

Universal Heavy-Duty Cable Block Pusher

This simple tool makes the lashing process smoother by maintaining the proper cable lead between the lasher and the cable block.

- ▶ The slotted tube has rotatable sleeves at each end to lock the unit on the strand.
- ▶ Standard length 24 in. (61 cm)

P/N 70018 Weight: 2.4 lbs. (1.1 kg)
