### Fiberglass Duct Rods

These heavy-duty duct rods provide a complement of duct cleaning tools.

- ▶ Available in, 5 ft. and 10 ft. lengths. Each 5/8 in. (16 mm) diameter rod comes fitted with high-strength, stainless steel 3/4 in. -10 NC couplers for maximum strength

When using duct rods and working on a grade it will be easier if rodding is done downhill. Where the run contains bends, less effort will be required if the straight portion of the duct can be rodded first.
