

Utility Manhole Cover Lifter

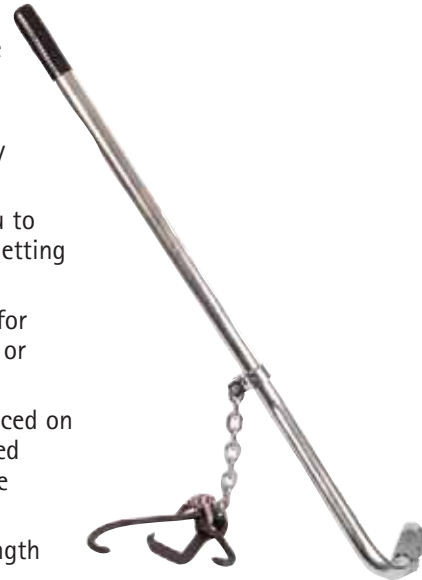

This lifter is for the individual faced with a wide variety of covers in their work environment.

- ▶ The plated-steel tubular body has been made thicker for the typically heavier electric utility manhole covers
- ▶ The built-in mechanical advantage allows you to remove even the most stubborn cover, while letting the lifter do the work, not your back
- ▶ A spiked foot is incorporated into the design for improved traction on ground, sand, ice, snow or other loose surface
- ▶ GMP offers multiple hooks or "keys" to be placed on the shackle at the end of the lifter's galvanized chain. This allows one tool to remove multiple cover types
- ▶ The keys are heat-treated steel for extra strength and durability

The use of GMP's Utility Manhole Cover Lifter is very similar to the Manhole Cover Lifter except that you now have a choice to make with the keys that came with your lifter. If you have a special application that requires a modified hook please consult with the factory.

Below is a chart providing an easy way to order one item for your manhole cover removal needs.

P/N	Weight	Small Lifter 70066	Small J-Hook 25110	Heavy L-Hook 25111	Large J-Hook 25112
70151	9 lbs. (4 kgs)	X		X	X
70152	8.5 lbs. (3.8 kgs)	X	X		
70153	8.5 lbs. (3.8 kgs)	X		X	
70154	8.5 lbs. (3.8 kgs)	X			X
70155	9 lbs. (4 kgs)	X	X	X	
70156	9 lbs. (4 kgs)	X	X		X
70157	9.5 lbs. (4.3 kgs)	X	X	X	X

E-Z Lift Cover Lifter

The E-Z Lift cover lifter is the tool of choice by major telecoms for removing and replacing manhole and pullbox lids. Manufactured from solid 6061-T6 lightweight aluminum

- ▶ The built in mechanical advantage allows you to remove even the most stubborn cover, while letting the lifter do the work, not your back
- ▶ Has a link device that attaches to an "S" Hook which allows you to position the tool so the handle is vertical when lifting.
- ▶ Has a urethane covered T-bar for extra traction on asphalt.
- ▶ Optional spiked foot is available for improved traction on grass, sand, ice, snow or other loose surface

P/N 70159 E-Z Lift Cover Lifter Weight: 8 lbs. (3.6 kgs)

P/N 70158 E-Z Lift Cover Lifter with Spiked Foot Weight: 8.5 lbs. (3.8 kgs)
