

COMPACT GUY STRAND CUTTER

Instructions

P/N 75244

The GMP Compact Guy Strand Cutter is a revolutionary new tool design for cutting guy strand cable up to 3/8 inch EHS. At 4.25 lbs., this progressive action cutter gives you enormous mechanical advantage in a compact tool that measures less than 17 inches.

 Never use this tool to cut electrically energized cable. Severe or fatal injury may result.

Operation of the strand cutter.....Is easy as 1, 2, 3

Open (wide) & close handles listening for ratchet click to cut cable. The ratchet mechanism will then pull the cable with each click into the tool until cable is cut.
