

# GMP Whisper Drill Stand P/N 89948

## Assembly Instructions

Place the tripod face down on a flat surface. Note the bolt that holds the mounting screw. With 13mm wrench, remove that bolt from the bottom of the tripod as shown in photo.

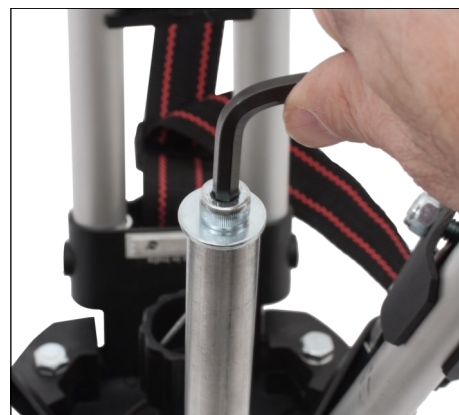

Securely attach Post and Bracket assembly to tripod with screw and washer provided using a 6mm hex wrench.

Remove screw and washer from end of post and bracket assembly using a 6mm hex wrench

Slide tray and bracket assembly over post and tighten wing nut as shown in photo

Replace screw and washer on end of post and bracket assembly using 6mm hex wrench
