

Fiber Blowing Attachment makes capable fiber blowing reel trailers convert quickly to use a GMP Tornado airboxAir

Airbox and adjustable hitch style stand allows you to quickly setup the tool in a matter of a few minutes attaching directly to the fiber blowing trailer's figure 8 attachment

Air control valve attaches quickly to control panel on your trailer

FEATURES AND BENEFITS

- The 1 inch square tube attachment to adapt to act as direct bolt in to existing fiber blowing trailers
- Converts existing fiber blowing-trailers to be used with GMP Tornado airbox, duct clamps, cable-guides and seals

WHAT'S INCLUDED

- 12- 24 mm Cable guides*
- Fiber cable blowing airbox
- Fiber blowing trailer adapter plate with adjustable distance and angle
- Air flow valve and pressure gauge assembly with standard 2 jaw air hose fitting
- Klein Modbox Storage case

**Contact GMP for additional sizes*

Works with all existing GMP Tornado Duct Clamps and Seals

PN: 90070

Operating Capacities

Cable Size:	.47-94" (12-24mm) O.D. (call for more sizes)
Sub Duct Size:	.75 - 2.00" SDR (12 - 63mm O.D.)

Pneumatic System

Air Hose Bore (min):	1 1/4" (32mm)
Operating Pressure:	175 psi (12 bar)
Flow:	The air supply should be filtered, cooled and dry. For Ducts with an Inner Diameter of: Minimum Flow Acceptable @175 psi (12 bar)

Dimensions - In Case	
Height:	28"
