GMP
a KLEIN TOOLS company

RIPBIT

ROTARY INNER DUCT SLITTER

- Cuts a 5/16” path through plastic duct up to 1/2" wall with any 1/4" router **without** damaging the fiber inside
- Set the tool at exact depth needed to cut through the wall
- Always start at the end of the duct and follow through with a quick steady cut
- Ensure the duct is secure before cutting
- It is not recommended to cut around the circumference
